Thursday, July 6, 2017

10:00am - 11:00am (CST)
Compliance Calendar to Wings Integration Free

FREE - Learn how the Compliance Calendar has been integrated into the Wings application through the use of the new "My Calendar" function. "My Calendar" monitors, reminds, and tracks NAIC, state filing form, premium tax, private, and custom events to complement other internal financial controls inherent in the Wings system.

Thursday, August 17, 2017

10:00am - 11:30am (CST)
Hook Excel Directly to Your Wings Database Free

FREE - This session will show you how to link Excel to your live Wings database to produce on-demand, customized reports for any external or internal stakeholder. Using WingsLink Live and our new DataConnector, we will show you how to create on-demand, reusable reports to aid in reconciliations, board of director reporting and projection modeling to help make manual processes become automatic processes.

Thursday, November 9, 2017

10:00am - 11:30am (CST)
How to Prepare for the Annual Statement Filing Season & Key Initiatives to Ensure a Successful Year-End with Wings \$150.00

This session will show you how to prepare for the Annual Statement Filing Season, including what key information you need to gather up front and what information you'll need to have access to. You will go over the many different ways for getting this information into Wings, and be given clues on ways to make the most efficient and effective use of your time.

Thursday, November 16, 2017

10:00am - 11:30am (CST)
Wings Introduction & Accurate Statements - Validation and Cell Override Reporting \$150.00

This session is designed for individuals who need to come up to speed quickly on basic Wings functionality in order to work effectively on producing statutory statements. We will cover the essential features of Wings so that you can enter, import, export, and validate the accuracy of your data. You will learn how to print statements and produce your regulatory filings. Become familiar with the validation process, how the ETM and NAIC validations function together, and how to configure and generate the corresponding reports for your specific needs. We will review the cell override reporting function, and how this tool will aid you in expediting the review process.

Monday, November 27, 2017

10:00am - 11:30am (CST)
