

WingsPlus: Municipal Tax automates municipal-tax preparation by producing returns for more than 6,300 city and county municipalities/fire districts. **WingsPlus: Municipal Tax** can write and read Excel natively, enabling you to search, sort, aggregate, format, and extract municipal-tax data for consumption by any other software system or management report. To eliminate paper, **WingsPlus: Municipal Tax** automatically applies electronic signatures to thousands of municipal returns. It prints check requisitions for each tax return or can be used to upload data into your account payable system and/or check-writing software.

HOLD YOUR BREADTH

Breadth of coverage is just one element to consider in evaluating the comprehensiveness of municipal tax capabilities. By helping insurers eliminate the time and expense of data redundancy – and reducing the opportunity for processing errors – Wings Municipal Tax helps contain costs and improve overall preparation processes in numerous ways.

CALCULATE THE DEPTH

In conjunction with the use of the **WingsPlus: PosiTax** feature, **WingsPlus: Municipal Tax** ensures accurate reporting and automates municipal tax processing which reduces staff time and work. Since the data resides in the same database, data changes made and saved to **WingsPlus: Municipal Tax** will dynamically flow to **WingsPlus: Premium Tax** forms.

WingsPlus: Municipal Tax, competitive edge? Yes, that's accurate.

WINGSPLUS: MT HANDBOOK

To support your municipal tax preparation, ETM has provided a municipal tax handbook which is like an umbrella; you never think about it until you absolutely need it. Once you open it, you want to be completely covered. And there's nothing more annoying or troublesome than finding out it has holes in it. Historically, municipal tax rates, fees, due dates, and penalties have been available in printed guides. However, printed guides are, by definition, cumbersome, time-consuming to use, frequently incomplete, and inevitably out-of-date. That was then. This is now. And now there's the **WingsPlus: Municipal Tax Handbook**.

IT'S ALL UNDER HERE.

The Municipal Tax Handbook is an online database that contains all of the information required to make municipal tax payments. Our research professionals make sure you have the FIPS (Federal Information Processing Standard) code associated to a municipality, along with its associated taxing authority and county information. You'll have the payment mailing address, as well as the contact name, phone number, and email address of the responsible person. You'll have due and delinquent dates, as well as details on how and when penalties are applied. You'll see tax rates by line of business and insurance company type. And you'll see the issuance and new-licensing fees. Whether you're preparing municipal tax returns, assessing the cost of doing business in a new state, pricing products, verifying rates, updating software programs, or researching municipal statutes or addresses, the database is constantly updated – and guaranteed to be the most current and accurate data source on the market.

Why wait for a rainy day to find out if your old municipal tax rate guide has you covered? We've got you covered right now with **WingsPlus: Municipal Tax Handbook**.
